

Model 100A Nitrogen Inflation Cart

Application: Automotive / Light Truck / Heavy Duty

If you want to add the *Purge'n Flate* automatic inflation feature of the Model 475 and 675 to any of our other models, the Branick Model 100A is the answer. Connect to any nitrogen source and you're able to inflate as many as six tires at once.

The 100A comes standard with 4 hoses & lock-on chucks and the ability to add 2 more. If the battery becomes discharged, the 120A can be used while plugged into a 110 volt outlet.

With features such as full programability, a top-off function and a pressure range up to 145 psi the 100A will make your nitrogen service simple, fast and economical.

Because its built with the quality you've come to expect from every Branick product the 100A will be part of your shop for a long time to come.
