

STRUT SPRING COMPRESSOR 7400

Branick®

Get the newest
model for ultimate
control!

Handles the toughest struts including Ford F-150 and Toyota RAV-4!

Known as "the standard in the industry," the 7400 handles the heaviest coil-over-shocks, on light trucks and SUV's, without needing additional adaptors. It also has longer handles for extra torque. There are multiple positions in which the longer upper spring hooks can be arranged for ultimate flexibility to fit "factory" coil spring configurations. Extra long springs? Bring 'em on! Long, short, narrow or angled; the 7400 will get it done!

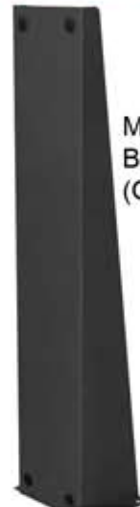

Additional options include the Model 741 Benchmount and Model 744 Mobile Cart.
