

TIRE CART

Branick®

**The Original
Tire Cart!**

Application: Passenger and LT Tires

The Branick Tire Cart is a product that has been copied many times, but according to numerous customers, it has never been duplicated. No one is able to match the strength, durability and versatility of our tire cart. This easy-to-use cart has a foot operated opening and auto-closing tire cradle. One of the most complimented features is the constant clamping pressure on the tire stack, meaning your tires stay on the cart! The cradle operating range is the largest on the market, and the tire design gives the feel of pneumatic with the durability of a solid tire. Keep your shop running smoothly with the long-lasting Branick Tire Cart!

Made in the U.S.A.
